Aluminum Dash Panels for the Scout II are Back!

After nearly two years of delays and five different manufacturers, we have finally found a shop local to us who can make our dash panels to our specifications for the 1971-80 Scout II, Terra or Traveler. They are an improved design over our previous dash panel as they are now one piece, fit better and come with a DA Sanded finish so any scratches are easy to hide. Currently in stock are the Small Hole with Radio Cutout. More versions to follow Mid-January, 2018. Proudly made in the USA.
